

FIS Cross Country Nation Rankings 2024-2025

The FIS Cross Country Nation ranking is calculated for each gender and is based on all the individual and team competitions held at World Cups (WC), World Championships (WSC), Junior World Championships (JWSC) and U23 World Championships (U23WSC) during the 2024-2025 season.

The FIS Cross Country Nation ranking will be calculated for each gender by cumulating:

- The scores of each nation's 3 best competitors for the individual competitions
- The score of each nation's best team for the team competitions (for mixed team competitions, the score will count for both genders).

The nations will be ranked according to their total number of points scored during the 2024-2025 season (1st place for the country with the highest number of points, etc).

In case of a tie (if two or more nations have the same number of points), the nations will be ranked according to the highest number of first places and then the best results (most 2nd places, most 3rd places, etc). If a tie still remains, then the positions are determined by a draw.

The following points tables will be used:

1. Individual competitions

The individual scores of each nation's 3 best competitors will be awarded.
In case of a tie, each competitor receives the points for that placing.
